Cargo Operations

QHSE

- Quality, Health, Safety and Environmental (QHSE) Management is an integral and essential cargo from the port, storing, sorting, stripping and stuffing of cargo in / out of containers.
- Part of the way we do our business and is considered an equal part of the wider system for the management of our business.
- GWC operates on an approved management system that meets the requirements of Quality and HSE management implemented in Iraq. GWC operations is certified for the provision of port management and operations including associated services such as shifting. The commitment of GWC to quality, health, safety, environment and security starts with the senior Management of the company, but is also the responsibility of everyone in the organization, including new recruitments. This commitment is vital to the continued enhancement of GWC's reputation.

- GWC has established and implemented a QHSE Policy, which states the company's vision and commitment towards the health and safety of its employees and the surrounding community; protection of the environment; the services quality and compliance with client and regulatory requirements.
- Management also ensures the continuous improvement of the established QHSE Management System by providing health & safety leadership, planning for health & safety success and enforcing processes and systems.
- HSE is a responsibility for us at GWC as we aim at achieving a safer workplace for everyone and consider protecting people, property and the environment of prime importance. This commitment and consistent efforts towards QHSE excellence has earned for us the recognition for both the organization as well as for our staff.
